

Personal Info Form by Dr Shox Suspension Service Centre

1. Please wash the suspension (forks and shocks) before sending in to us, if the units are dirty it will take longer to turn around.
2. If you have "pro bleeds" to release air from the tops of forks by pressing, please remove them and replace with screws before packing as oil will leak out of pro bleeds in box, and shipping company could refuse to deliver your suspension.
3. Carefully wrap individual parts in protective packing material. Cardboard boxes are good, roll them out flat and pack each item thoroughly. Dr Shox is not responsible for parts that are damaged during shipping.
4. Please fill out the following form and ship with your components to Dr Shox Suspension c/o GH Motorcycles, 1 Challenge Way, Colchester, Essex, Co1 2LY, United Kingdom
5. Please remove all fork gators and fork guards and any bolts, as when they get removed here for servicing they can get forgotten!
6. Turn around time is aprox 1week. This is based on us recieving the suspension on a Monday or Tuesday and it leaving us by Thursday so you recieve by Friday. Saturday deliverys are available but are NOT Guaranteed.
7. Once all work is complete we will take card payment and send back, if we need to know any other information will contact you. Payment must be made before items are sent out.
